Thursday, 1 July 2010
10:00-11:30 AM (U.S. ET)
15.00-16.30 (UK)/16.00-17:30 (Central Europe)

The International Pharmaceutical Aerosol Consortium on Regulation and Science (IPAC-RS) Supplier Quality Working Group is hosting a 1.5 hour web-conference for suppliers of container closure system and/or device materials and components for orally inhaled and nasal drug products (OINDP), as well as OINDP manufacturers/developers.

This web-conference will offer a unique opportunity for suppliers to hear from manufacturers about expectations on component quality, and to express views on key supplier quality issues. The web-conference will include presentations from leading OINDP manufacturers and suppliers on:

- The Regulatory and Scientific Context for Enhancing Quality of OINDP Materials and Components
- Information on IPAC-RS and its Supply Chain Activities
 - Current and Planned Initiatives to Enhance Quality of OINDP Materials and Components
 - How to Get Involved
- Open Discussion and Q/A

The material presented will be important for pharmaceutical companies, suppliers of finished OINDP components, and upstream suppliers such as resin manufacturers and rubber compounders.

To register for the web-conference, please go to: www.signmeup.com/70613
